REPORT OF THE TRUSTEES OF THE JAMES A. TUTTLE LIBRARY JAN. 31, 1936

The returns from the invested funds of the library have decreased $112.92 from what was received in the period from Jan. 31, 1934 to Jan. 31, 1935. In order to maintain the present service the Trustees will need an appropriation of $550.00 from the Town for the ensuing year. The Trustees wish to call the attention of the voters to the fact that the fire insurance coverage for the Library building is now $8,000.00 and for books $2,000.00. This is probably less than half the amount which would be required for replacement in case of a bad fire. If the voters believe that we should carry additional insurance there should be provision made for this purpose in the appropriation.

GENERAL DISCUSSION

In behalf of the Molly Aiken Chapter D. A. R., the Superintendent of Schools has personally conducted tests in American history to carry out the provisions for prizes to be awarded to those pupils of the seventh and the eighth grades for excellence in that subject. The efforts made by the above named organization to help in maintaining a high level of scholarship in the history of our nation are commendable and hereby appreciated.

In order to help the elementary school teachers in better understanding the needs of the weak pupils in their grades the superintendent has personally given both in-

telligence and achievement test, which he corrected himself, and discussed the results thereof with the teachers concerned, for the purpose of eliminating failures even among the slow children.

A further testing program is being planned to be personally administered by the superintendent, from the first grade up, before June in order to discover weaknesses in the school system, and to help the teachers to get the utmost cooperation from all the pupils for the purpose of attaining one hundred per cent promotions at the end of the year.

Frequent teachers meetings have been held by the superintendent at which a democratic theory of education has been emphasized. It has been made clear that the schools should be fitted to the interests, needs, and capacities of the children, rather than fitting the children to the schools. This philosophy of education is so well carried out, especially in the high school, that when Mr. Russell Leavitt, the New Hampshire high school agent, inspected the Antrim high school, to see if an approved high school is being conducted, he made a most complimentary report concerning his findings.

The various schools of the district have presented before the public fine Christmas exercises, a beautiful operetta, an appealing senior play, and some basketball.

Education week was observed by all the schools before a capacity audience in the town hall, with numerous phases of school work and exhibits. Addresses were delivered by Headmaster Chaffee, Reverend R. H. Tibbals, and the superintendent of schools.

A new feature at the close of the present school year will be graduation exercises and award of diplomas for the children who will complete the elementary schools of the district. This is recommended in the belief that it is too long a time for children to have to wait until graduation from high school, before they receive some form of recognition for school achievement.

It takes all of the first year at least for a new superintendent to gain a full knowledge and appreciation of the work which the school district needs. He is trying to learn as fast as he can.

Considering how well the present educational system in Antrim functions, and the unusual demands of the times in the way of taxation, it may be just as well to rejoice in the opportunities already available, and put off any recommendations for the further expansion of our educational program until more prosperous times.

Respectfully submitted,

VINCENT GATTO,
Supt. of Schools
